

GenZCY - Build With Vibe

4 weeks . 8 sessions x 2h . 1-on-1 . full-stack vibe coding

Program Overview

A private mentorship program for business owners who want to understand how websites work, build their own with AI assistance, and scale with confidence. You don't learn to code - you learn to architect and direct AI to build for you.

Stack: Vite + TailwindCSS (Frontend) | Express JS (Backend) | MongoDB (Database) | Resend (Email) | JWT (Auth)

1 Introduction to Vibe Coding Responsibly

SDLC: Analyze + Plan

Compare Campus vs Practicals vs Vibe Code. Dev history. OpenCode + PromptAudit. Zero-level vanilla stack. Deploy to Netlify.

2 The Prompt Architect

SDLC: Plan + Develop

AI history (expert systems to LLM). Context management (MCPs, Skills, Markdowns). SDLC + Blackbox Dev. Clean code, clean repo. Fork & deploy 2 projects.

3 Do Not Reinvent The Wheels

SDLC: Plan + Develop

Why frameworks exist. Vite+TailwindCSS+Express+MongoDB. Complete beginner track. Deploy framework app.

4 Trust, But Verify

SDLC: Develop + Test

pino structured logging. Break case (trace & fix). Analytics (Plausible/GA). Business case simulation. Log viewer + analytics dashboard.

5 From Click to Cash

SDLC: Develop + Test + Deploy

Booking form + payment gateway (Midtrans/Stripe). Webhooks + email receipt. Break: webhook failure.

6 Know Thy Customer

SDLC: Develop + Test + Security

JWT auth + admin dashboard + roles. Email notifications. Break: role leak.

7 Ready, Set, Ship

SDLC: Deploy + Maintain

SEO + Open Graph + CDN + rate limiting + cookie consent + privacy page. Break: mixed content.

8 Full Circle

SDLC: Maintain + Iterate

Solo free build. PromptAudit graduation review. Community showcase. Scale handoff.

Total: 8 sessions x 2h = 16 hours 1-on-1 mentorship

Every session follows: Concept -> BUILD -> READ code -> Error tracing -> Commit & Push

PromptAudit protocol active from Day 1 - every prompt is logged for mentor review.
