

GenZCY – Build With Vibe

4 weeks | 8 sessions × 2h | 1-on-1 mentorship

A private program for business owners. You don't learn to code. You learn to architect websites and direct AI to build them. Every session ships real code.

Stack: Vite + TailwindCSS (FE) | Express JS (BE) | MongoDB (DB) | Resend (Email) | JWT (Auth) | Midtrans/Stripe (Payments)

Tariff: Rp100.000/hour (× 16 jam = Rp1.600.000 total)

Sesi	Judul	Isi	SDLC
1	Introduction to Vibe Coding Responsibly	Perbandingan Campus vs Praktek vs Vibe Code. Sejarah development. OpenCode + PromptAudit. Zero-level vanilla (HTML/CSS/JS, JS backend, SQLite). Deploy ke Netlify via GitHub.	Analyze + Plan
2	The Prompt Architect	Sejarah AI: expert systems ke LLM. Manajemen konteks (MCPs, Skills, Markdowns). SDLC & Blackbox Dev. Clean code, clean repo. Fork 2 project, deploy keduanya.	Plan + Develop
3	Do Not Reinvent The Wheels	Kenapa framework ada. Vite + TailwindCSS + Express + MongoDB. Selesaikan beginner track. Deploy app berbasis framework.	Plan + Develop
4	Trust, But Verify	pino structured logging. Break case: bug sengaja, trace dan fix. Analytics (Plausible/GA). Business case: simulasi visitor. Log viewer + analytics dashboard.	Develop + Test
5	From Click to Cash	Booking form + payment gateway (Midtrans/Stripe). Webhook + email receipt. Break case: webhook failure.	Develop + Test + Deploy
6	Know Thy Customer	JWT auth + admin dashboard + roles. Email notifications. Break case: role leak.	Develop + Test + Security
7	Ready, Set, Ship	SEO + Open Graph + CDN + rate limiting + cookie consent + privacy page. Break case: mixed content warning.	Deploy + Maintain
8	Full Circle	Solo free build. PromptAudit graduation review. Community showcase. Scale handoff.	Maintain + Iterate

Total: 8 sesi × 2 jam = 16 jam | Rp1.600.000

Setiap sesi: Konsep → BUILD via prompt → BACA kode yang digenerate → Error tracing → Commit & Push. PromptAudit aktif dari Hari 1. Setelah lulus: bergabung dengan network owner + jalur handoff scale.
